COVID-19 ADVISORY NOTICE

Due to the ongoing presence of COVID-19 in the US, Choose and Cut Christmas Tree Farms are taking extra measures to insure the safety of customers as well as their workers and themselves.

Please call ahead or check online before your visit to find out about any modifications to hours and amenities; the information in this guide is subject to change at any time during this evolving situation.

Please practice the “3 Ws” during your visit to any farm or tree lot and we can all continue to enjoy the festivities of this holiday season:

IF YOU LEAVE HOME, KNOW YOUR 3 Ws!

WEAR

a cloth mask over
your nose and mouth.

WAIT

6 feet apart. Avoid
close contact.

WASH

your hands or
use hand sanitizer.

@NCDHHS

#StayStrongNC

Have a safe and enjoyable visit to a Choose and Cut Christmas Tree Farm this fall! Make great memories and take home a symbol of the spirit of Christmas to enjoy throughout the holiday season.

DID YOU KNOW...

Every acre of Christmas trees grown produces the daily oxygen requirement for 18 people.

Visit www.NCchristmastrees.com

NORTH CAROLINA FRASER FIR

The Perfect Christmas Tree

Fresh, Fragrant, & Safe

Make a fresh cut

Straight across the base of the tree, cut off approximately one half inch before placing tree in stand.

Use a stand that will hold a gallon of water or more

Check water often, keep the stand full

A tree may take up a gallon of water in the first 24 hours and a quart a day after that. Preservatives are not needed, just plenty of fresh water.

Place tree away from heat sources, heating vents, fireplaces, wood stoves, radiators and sunny windows

Check lights and cords for broken bulbs and frayed wiring

Do not overload electric circuits

Turn off lights before leaving home or going to bed

Remove tree from your home promptly after Christmas and recycle it

*Remember, a fresh cut, plenty of water,
and a bit of common sense is all it takes to enjoy your
North Carolina Fraser Fir. Have a Joyous Holiday Season.*

The Goodness Grows in North Carolina program is the official promotional program of the North Carolina Department of Agriculture and Consumer Services. The program was originally conceived as a broad-based way to promote top quality NC agricultural products. Beginning in 1998, some changes have been made to tailor part of the program to the Christmas Tree and Nursery Industries.

Membership in the program is free to all qualified producers of North Carolina agricultural products. Qualifications for Christmas Tree Growers and Nurseries include:

- 1) Production facilities or corporate headquarters must be located in North Carolina.
- 2) Facilities and or products must meet all Federal and State regulations where applicable.
- 3) The Goodness Grows logo can only be used on plants that are:
 - a) Grown in North Carolina
 - b) Meet or exceed the USDA standard for # 2 Christmas trees (for cut trees)
 - c) Meet or exceed the American Standard for Nursery Stock as published by the ANLA.

The Goodness Grows in North Carolina program is not intended as a substitute for any of the programs of the NCCTA. The NCDA & CS encourages you to continue your support of the North Carolina Christmas Tree Association and the outstanding work the association does for the North Carolina Christmas Tree Industry.

The Goodness Grows in North Carolina symbol is registered with the Secretary of State, and its use is regulated solely by the North Carolina Department of Agriculture and Consumer Services.

The Perfect Christmas Tree...

SELECTING

- Determine where in your home you will display your tree. This will help you on determining the height of your tree and if all four sides must be suitable for display.
- Measure and measure again. Don't forget to allow room for the treetop decoration! Also, Keep in mind that trees look smaller when they are outdoors, so be sure to measure the tree that you choose before bringing it home.
- Choose a stand that is sturdy and holds AT LEAST 1 gallon of water.
- The tree should have a good fragrant aroma and dark, green color.
- Take a tarp or an old blanket to wrap the tree in and rope to secure it to the top of your car.
- It is best to store your tree outside, in a cool place protected from the sun until you are ready to set up and decorate the tree. Be sure that the base of the trunk is submerged in water until you are ready to bring it inside.
